

FEMA has issued an update to the disaster declaration for Montana designating an additional county as eligible for **public assistance** and **only applies to iQM loans**.

Re-inspections will be required for properties located in zip codes and counties that are eligible for individual and public assistance for appraisals issued prior to the incident dates of *April 12, 2018 – May 6, 2018*. For loan products with no appraisal (PIW, FHA Streamline, VA IRRRL), a re-inspection may still be required (see chart below for requirements). Acceptable re-inspection documents include the appropriate DAIR, 1004D or appraisal product and must be ordered after the incident period is over.

- **Exterior Inspections:** Required for all re-inspections, including, but not limited to earthquake, fire, landslide, tornado, flood, and hurricane.
- **Interior Inspections\*:** Required for all flood and hurricane related disasters regardless of “Exterior Only DAIR” indication below.

The chart below lists the required re-inspection type by loan product.

	Conventional w/ Appraisal	Conventional w/ PIW	HARP w/ Appraisal	HARP w/PIW	VA Full Doc	VA IRRRL	FHA Full Doc	FHA S/L	NQM
New Full Appraisal		X							
Exterior Only DAIR*	X		X		X	X			X
1004D w/Interior & Exterior							X		
No Inspection Required				X				X	

### **New Loan after Incident Period**

New loans submitted after the incident period that require an appraisal product must have the inspection performed after the incident period end date. The appraiser should comment on the effect of the disaster on the subject property value and marketability. If the inspection occurs prior to the incident period end date, the corresponding re-inspection (DAIR, 1004D or appraisal product) is required.

New loans submitted after the incident period that do not require an appraisal product (PIW, Streamline, etc.) must be originated after the incident period end date. If originated prior to the incident period end date, the corresponding re-inspection (DAIR, 1004D or appraisal product) is required.
