

NQM Asset Qualification Program – Underwriting Guidelines

Guideline Overview

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform and Consumer Protection Act's requirement that a borrower have the Ability to Repay the mortgage loan. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the wherewithal to repay the debt. This program requires review and verification of documentation to ensure that the loan meets Ability-to-Repay (ATR) standards. In regards to any underwriting criteria not specifically addressed in this document, Fannie Mae standards apply.

Program Qualifications

This program is designed for borrowers who have significant verifiable assets and would benefit from alternative loan qualification methods. Asset statements alone (no debt to income ratio is required) may be used by high net worth individuals for qualification.

NOTE: Loans that are eligible for sale to a government-sponsored enterprise (GSE) – the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac) – are ineligible for any NQM Series programs.

Age of Documentation	<p>Credit documents (inclusive of credit reports, employment, income, and asset documentation) and title reports must be no more than 120 days old on the note date. When consecutive credit documents are in the loan file, the most recent document is used to determine whether it meets the age requirement. For example, when two consecutive monthly bank statements are used to verify a depository asset, the date of the most recent statement must be no more than 120 days old on the note date. If the credit documents are older than allowed, they must be updated.</p> <p>Appraisal Reports and Appraisal Updates must be dated within 120 days from note date. If older than 120 days from note date, but within the preceding 12 months from note date, the Appraisal Report may be used with an acceptable recertification of value completed on Appraisal Update and/or Completion Report (Form 1004D). An Appraisal Update and/or Completion Report must inspect the exterior of the property and review current market data to determine whether the property has declined in value since the date of the original appraisal.</p> <ul style="list-style-type: none"> If the appraiser indicates on the Form 1004D that the property value has declined, then the lender must obtain a new appraisal for the property. If the appraiser indicates on the Form 1004D that the property value has <i>not</i> declined, then the lender may proceed with the loan in process without requiring any additional fieldwork. <p>Note: The appraisal update must occur within the 120 days that precede the date of the note and mortgage</p>																						

NQM Asset Qualification Program – Underwriting Guidelines

	<p>The original appraiser should complete the appraisal update; however, lenders may use substitute appraisers. When updates are completed by substitute appraisers, the substitute appraiser must review the original appraisal and express an opinion about whether the original appraiser's opinion of market value was reasonable on the date of the original appraisal report. The lender must note in the file why the original appraiser was not used.</p>

Mortgage/Rental Lates: Maximum 1x30 in the last 12 consecutive months

- Applies to all mortgages on all properties. Mortgages that do not appear on credit require a VOM from an institutional lender. Otherwise, private party VOM's must be substantiated by 12 months cancelled checks or bank statements. **Mortgages not rated on credit must adhere to the following requirements:**
 - **Maximum 0x30 in months 1-6**
 - **Maximum 1x30 in months 7-12**
- When documenting rental payment history, a Verification of Rent (VOR) from a third party management company is required. If the VOR is from a private party, cancelled checks or bank statements are required to support the VOR.
- **For borrowers who currently own all property free and clear there is no mortgage/rent history requirement provided any closed mortgages meet the 1x30 requirement in the last 12 months.**
- **Free and clear ownership counts as 0x30 for all months owned free and clear.**

The charts below detail housing payment history requirements for First Time Homebuyers and Non-First Time Homebuyers (i.e. had ownership interest in property at some point in the last 3 years). The left column details the Standard payment history requirement. The right column details restrictions when the Standard requirement cannot be met. In other words, the Standard requirement is not met when the borrower cannot document a verifiable housing payment history spanning the most recent and consecutive 12 months (e.g. borrower's history is less than 12 months or there is no verifiable history during the last 12 months). In all cases, Standard or not, housing payment history cannot exceed 1x30 in the last 12 consecutive months.

Foreclosure: None in the last 3 years. If ≥ 3 years and < 4 years, max 70% LTV or existing guidelines, whichever is lower.

Judgment/Tax Lien/Collections/Charge-Offs:

- Judgments and Tax Liens on title must be paid. **If there is evidence in the file of judgments and/or tax liens and they are not on title, cumulative balances exceeding \$5000 must be paid. Pay down of cumulative balances to \$5000 or below is allowed.**
- Medical collections are excluded regardless of amount
- Any new charge-offs or non-medical collections within the last 12 months greater than \$1,000 per trade line, or the cumulative amount is greater than \$2,000, must be paid off.

Disputed Accounts: Disputed accounts are reviewed to determine current balance and derogatory information (a 30-day or more delinquency) within 2 years prior to the credit report date:

- **If the disputed account(s) has no derogatory information – the underwriter must evaluate for acceptability and address their decision on the 1008.**
- **If the disputed account(s) has derogatory information – the dispute must be removed and a new credit report must be pulled.**

Frozen Credit: If the borrower's credit is frozen at one of the credit repositories, the credit report is still acceptable as long as:

- Credit data is available from two repositories,
- A credit score is obtained from at least one of those two repositories, and
- A three in-file merged report was requested.

Loans for borrowers with credit data frozen at two or more of the credit repositories are not eligible.

NQM Asset Qualification Program – Underwriting Guidelines

	<p><u>Authorized User Accounts:</u> The underwriter may make the determination that an authorized user account(s) has an insignificant impact on the borrower's overall credit history and the information on the credit report is representative of the borrower's own credit reputation. The underwriter should base their determination on the number of the borrower's own tradelines, as well as their age, type, size and the payment history, as compared to the authorized user account(s). The underwriter must document their determination on the 1008.</p>
Escrow Accounts / Impounds	<p>Impounds are not required unless either of the following:</p> <ul style="list-style-type: none"> The loan is a higher-priced mortgage loan (HPML) transaction. HPML transactions require a minimum 5 year escrow period (CFPB TILA Escrow Rule). Flood insurance is required (i.e. impounds for flood insurance are required if subject in a flood zone).

Rather, the borrower(s) must have liquid assets sufficient to cover the items noted below:</p> <ul style="list-style-type: none"> The loan amount; All closing costs and prepaids; All revolving, installment, alimony/child support, and mortgage related expenses for a period of no less than five (5) years; <u>AND</u> Subject property reserves requirements based on loan amount as detailed in the <i>Reserves</i> section of this matrix. Additional financed property reserves as detailed in the <i>Reserves</i> section of this matrix. <p><u>Mortgage Related Expenses:</u> As referenced in the third bullet point above, mortgage related expenses must be accounted for in the 5 year calculation.</p> <ul style="list-style-type: none"> <u>Subject Property:</u> Exclude the subject P&I from the 5 year calculation (i.e. only include taxes, insurance HOA, special assessments, etc.). <u>Non-Subject Properties:</u> Include the PITIA of additional REO in the 5 year calculation. Whenever additional REO is an investment property, the PITIA for that property may be excluded from the coverage requirement provided the property has positive cash flow. If the investment property has negative cash flow, any net negative rental amount must be multiplied by the 60 month term with the resulting amount added to the required assets. Leases are required to document the rental income received for an investment property (Form 1007 is not required). A 25% vacancy factor must be applied to the monthly rent prior to calculating positive/negative cash flow for the property. <u>Short-Term Rentals:</u> Short-term rentals are properties in which the rental term is less than 12 months, relatively variable in duration (e.g. short weekend, two weeks, several months, etc.), and may not be subject to a traditional lease agreement.
